

# AL-RASHED PREFABRICATED BUILDINGS

# ABOUT US

The prefabricated Buildings Division was established in 1983. We are one of the Saudi Local manufacturers of prefabricated buildings.

We provide an eco-friendly prefabricated permanent or temporary building in oil and gas worksite, health care sector, education sector, hospitals, offices and many other areas.

# WHY PREFABRICATED STEEL BUILDINGS

---

## One-Stop Housing Solution

---

Al-Rashed prefabricated buildings provides customers with systematic integrated housing solutions covering the whole process from project planning, scheme and construction drawing design, manufacturing, transporting, and installation to project management.

## Reliable Quality

---

Quality is at the heart of Al-Rashed Prefabricated business philosophy. By managing the factory according to a national brand, we aim to ensure product quality and increase customer satisfaction. The company has continuously upgraded products and improved product quality since it was founded. We are committed to meet the needs of our customers.

## Outstanding Delivery Capacity

---

We have strict time management mechanisms, creative control methods, and a strict construction organization and design plan, ensuring all stages are controlled through advanced internal management tools and platforms.
