

Together, we aim to support the Kingdom's Vision 2030 goals

BAZ International Industry Company, a leading Manufacturer in the commercial steel industry, specialized in cold treatment techniques within the Kingdom of Saudi Arabia and the Arabian Gulf. In 1978, Sheikh Ahmed Mohammed Baghlaf established the company's, to cater to the growing demand for commercial steel products in the area.

Our distinguished history of collaboration with esteemed partners in the commercial sector has positioned us as key contributors to some of the most significant projects within the Kingdom of Saudi Arabia. These ventures not only reflect our commitment to excellence but also underscore the importance of fostering strong, enduring partnerships. As we look to the future, we are enthusiastic about deepening our involvement in transformative, large-scale projects by continuing to work closely with contracting firms and project-focused organizations. Together, we aim to drive innovation, support the Kingdom's ambitious Vision 2030 goals, and build a sustainable and prosperous future for all.
